

## **Notice of Deletion of the Rocky Flats Site from the National Priorities List**

The U.S. Environmental Protection Agency (EPA) announces the deletion of the Peripheral Operable Unit (OU) and OU 3 (Offsite Areas), encompassing approximately 25,413 acres, of the Department of Energy's Rocky Flats Site from the National Priorities List (NPL). EPA has determined that all appropriate response actions under the Comprehensive Environmental Response, Compensation and Liability Act have been implemented, and that no further response action by responsible parties is appropriate.

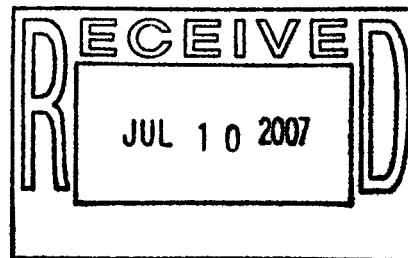

The 1,308 acre Central OU is not deleted and will remain on the NPL. The State of Colorado, through the Colorado Department of Public Health and Environment, concurs with the deletion. The Department of Energy will be responsible for all future response actions required at the area deleted, if future site conditions warrant such actions.

Information about the deletion is available for viewing and copying at the following repositories:

Rocky Flats Reading Room  
Front Range Community College  
3705 112<sup>th</sup> Ave.  
Westminster, CO 80033  
M-Th 9 AM - 5 PM, F 10 AM - 5 PM
